Dear Mike,

Further to our telephone conversation this morning I have written the following "reference" for your use :

"I have worked with Compel for over six years and the Clerical Medical has had an even longer relationship with the company. During the time I have worked with Compel they have provided excellent support through consultants on site visits, help desk facilities and training provided at their office in Marlow. I have worked with both their DOS and Windows based products and found them flexible and very adaptable to the Clerical Medical's needs."

I trust this is sufficient for your purposes.

Yours sincerely,

Dave Anstee
Systems Supervisor
