Dear Jo

I attach the course evaluation form for my recent visit to Compel. I think it appropriate to add one comment. I do not particularly enjoy IT and in the past have had some mixed experiences of training courses. I thoroughly enjoyed the course and would put this firmly down to Stella Phillipps whose unbounded enthusiasm and endless patience made the two days a very positive learning experience. I think she is a credit to your organisation.

I am not prone to writing "congratulations" letters and hope this letter reaches the right places.

Yours sincerely
