

Compel - Report Writing Extending Your Knowledge

This two day course is recommended for users who wish to maximise their usage of reports in Compel for Windows.

PRECONDITIONS

A full understanding of the Report Writing – The Fundamentals course and good experience of putting those report writing techniques into practice.

GOALS

Delegates should complete the course with:

- An ability to set up matrix reports with more than one level of sub-total
- A good understanding of how method language can be used in reports
- A good understanding of how workareas can complement report design and enhance report presentation
- An ability to add report menu options and buttons to Compel for Windows

- **COURSE CONTENT**

The Compel for Windows Advanced Report Writing course will cover:

- Advanced query selection
- The use of method language within queries
- An introduction to the method editor and method events
- Workareas and totalling
- Inclusion of data from multiple tables
- Creating tasks and adding reports to the user library
- Adding a button to a form - running a report from that button

Please note that the training will be conducted on the latest version of the product. If any differences exist between this and previous versions, these will be highlighted by the trainer.
